Enjoy the luxurious taste of our decorated chocolate truffles, made from rich premium quality chocolate and delicious fillings complemented by natural garnish. Our final product contains 50-52% of chocolate. But it's not just the taste that stands out in our truffles – the garnish makes the truffles a treat for the eyes, too.

DISPLAY stands

A countertop or tabletop display is another popular design for chocolate truffle display stands. These stands are typically smaller and more compact than tiered stands but they still offer an attractive and functional way to showcase the chocolates.

These stands may feature a single tier or multiple tiers, and are made from various materials, such as wood, acrylic or metal.

The chocolates can be arranged on the tiers in different ways, e.g. in rows or in a spiral, to create a display that catches the eye.
